—		

The following PSTN exchange lines are used for outgoing calls to locations in Parkes and environs: **6862 3063**, **6862 3341**, **6862 3677** and **6862 3945**. Should an attempt be made to return a call on one of these numbers (e.g. via ***10#**) the call will be immediately diverted to the normal switchboard number, 6861 1700. *This has been set up using Telstra's *21<num># facility.*

Also, **6863 3132** is used for the Safety System auto-dialler, 6863 3122 is Telstra's private phone in the Link Room, and there is a modem on 6862 3493 for the PABX maintenance – not for general use.

A Special prefix is available to force a call via ISDN – dial 10 instead of 0 to obtain an outside line. To force an outgoing call via the Parkes Telephone Exchange (using one of the four PSTN lines) dial 12801 instead of 0 to obtain the outside line; (you will not necessarily hear a dial tone).

From July 2005, CSIRO has a new Employee Assistance Program (EAP) provider, *IPS Worldwide**, ensuring that all employees and immediate family members have access to free* counselling 24 hours a day, 7 days a week. New appointments should be made through:

IPS Worldwide EAP Services. Tel: 1300 366 789

Face-to-face counselling is available **by appointment on 1300 366 789** during business hours at IPS Worldwide's local professional offices that have easy access to transport and parking.

(Offices in Bathurst, Orange & Parkes).

OR

you can access the 24 hour phone **crisis counselling service on 1800 451 138.**

NOTE: Special arrangements have been made by management to continue some of the existing services provided by Janet Benson to ATNF employees to ensure that individual needs are met during the transition to the IPS Worldwide services contracted to CSIRO.

For **existing** services contact Janet Benson - Thurs afternoons at Epping: 02 9372 4275 (Ext 4275).
